

# Pegasus Opera 3

Full integration across your entire business

## What we offer

Pegasus Opera 3 is a complete business solution which can be fully integrated throughout your organisation, eliminating the need to run separate finance, payroll, supply chain, CRM or service systems. Every business is unique with individual requirements, and particular challenges. That's why Opera 3 has been designed to be completely flexible, scalable and totally customisable. With over 20 years' experience, we are renowned for our support throughout the whole process, including consultation and implementation to make sure this software solution works for your business. We also provide **12 months free of charge software support** to ensure you are happy with how your system is running.

**Opera 3 is fully compliant with the Making Tax Digital (MTD) rules ensuring that customers can fulfil their obligations under MTD.**

### Financials & Analysis

Align information in all ledgers and have visibility in your cashflow continuously. Cashbook, Credit Management Centre, Costing, EC VAT, Multi-Currency, Fixed Assets are all modules you have the option of including.

### Supply Chain Management

Integrate sales and purchase ordering with the relevant financial information. Ease your stock and warehouse processes with Stock Control and have fast and accurate manufacturing information in Bill of Materials.

### Payroll & HR

With HMRC PAYE Recognition, it fully caters for email payslips, auto-enrolment of pensions, salary sacrifice and the submission of Real Time Information to HMRC. P60s, Payroll, Pensions, Personnel.

### CRM

Manage your opportunities and convert all through one system. Keep an eye on your prospects, send e-shots, generate quotations, and analyse your opportunities. Remote access is even available for the sales team on the road.

### XRL

A powerful reporting tool which extracts live data into Microsoft Excel allowing you to view, analyse, and report using the familiar Excel program. Live information can be simply refreshed without the usual labour-intensive processes.

### Document Management

Documentation all in one place for instant access, including customer orders, supplier invoices, credit notes, signed delivery notes etc. Documents can be accessed through an easy-to-use retrieval software, and can even be reported on.

## Pegasus Web Xchange

Accessing your Opera 3 data remotely can be easy and secure using Pegasus Web Xchange for services such as Payroll Self-Service, Mobile Sales and Timesheets. On any PC or Tablet, you can view and amend data which will then update the whole system.

### Payroll Self-Service

Reduce admin time and make substantial savings on the cost of posting payslips and P60s. Give employees remote access to their payslips, personal details, pension information, contacts, bank account information, absence details, holiday entitlement etc so that they can view and update at any time and for ease of access.

### Mobile Sales

Sales teams out on the road can have live access into the system data for stock levels and details of customer accounts to improve the way your sales team interacts with customers. Compatible with android tablets, the sales person can showcase the product, take the order and send it securely back to the office to be authorised and uploaded into Sales Order Processing.

### Timesheets

Employees can enter timesheets on any device from anywhere with internet access. A simple and accessible way of timesheet recording to manage time and activities effectively, and also allowing project managers to track and monitor time against certain tasks and projects set out. Timesheets also integrates with Payroll, with one simple process from submission, to approval by manager, to payroll administration.

## Pegasus Business Cloud

**Subscription based option.** An easy to use, access anytime, anywhere ERP business solution online which is cost effective and ensures that your business operations run smoothly. A very customisable and scalable system which you can build to suit your requirements. A secure and reliable cloud-based option offers a way of modernising your business very quickly and easily to save on the cost of purchasing and maintaining hardware, software and data storage.

**All part of a subscription service on a monthly basis.  
FREE 1 month no obligation trial!**

## Pegasus Training courses

We hold many Pegasus training courses on a regular basis in our purpose-built training suite. Led by Pegasus Training Specialists, these structured and practical courses give you the knowledge you need for ease of use of the system and to save time.

For our upcoming training course schedule, please get in touch: [training@sbk.co.uk](mailto:training@sbk.co.uk)
